

# TIRE SHINE

## TIRE & TRIM SILICONE CLEAR COAT

Best In Show Professional Tire Shine with Silicone Clear Coat is a clear coating that provides a water-resistant, high gloss shine on tires and interior/exterior trim. This product protects, preserves, and renews vinyl or rubber surface. Great for use on tires, interior and exterior trim. Makes faded black surfaces look new.

### Directions:

Shake well. Spray on a cool, clean surface from a distance of 10 to 12 inches using circular, or sweeping side to side motion. No wiping is required. Any accumulation will dry unassisted. For interior use, product may be sprayed on a clean towel and wiped on surfaces to be treated.

### Use On:

- Tires
- Vinyl
- Rubber Trim
- & More

### Use For:

- Exterior
- Interior
- Protection
